Specialists in Engineering Solutions for the Recycling and Material Handling Sectors

The Anaconda ST Range of Mobile Wheeled Conveyors are designed for the Material Handling Sector and aim to reduce production time and save stockpiling costs.

The **ST80** is the largest of our Wheeled Conveyor Range. Fully equipped with a 80' Stockpiling Conveyor it allows for stockpiling or feeding of a range of applications. The **ST80** has a variable speed conveyor in order to facilitate for different applications such as sand, gravel, aggregates, compost, coal and wood chip.

The **ST80** can be shipped worldwide within a 40' sea container and has become widely recognised in the market. Set up is simple and the machine can be running within 10 minutes of delivery. Commissioning is aided with the hydraulic controls to fold and unfold the Conveyor for transport.

Anaconda stock a full range of spare parts as a display of our commitment to provide a dedicated and responsive service to all our customers.
